- Site characterization
- Final Status Survey planning
- Environmental compliance
- Environmental remediation
- Decontamination, decommissioning and demolition
- NRC and CERCLA Repository construction, operation, and closure
- Engineering and design
- Hazardous and radioactive waste management
- Final Status Surveys
- Information technology and custom database design
- Project management, construction oversight and assessment
- Environmental planning, permitting, compliance, agency interface
- Mobile laboratories and instruments

- Department of Energy (DOE) Office of Small and Disadvantaged Business Utilization 2021 **Small Disadvantaged Business of the Year**
- Ranked the **#1 Small Business in the 562910 NAICS code** by Bloomberg Government in 2020
- **Ranked #7 Top Nuclear Waste Management Firms** by Engineering News Record
- Performed over \$1.6B in waste management related services since our inception
- Manage over 1.2M tons of radioactive, hazardous and mixed waste annually

OFFERINGS

- **Equipped laboratories**, led and supported by CHPs, CIHs, CHMMs, CSPs, NRRPTs providing customized, technology-savvy, and cost-effective turnkey remediation and professional services from planning through waste treatment and disposal
- Fully vetted 10 CFR 835 or 10 CFR 20 **Radiation Protection Programs**
 - Led by seasoned DOE RADCON Managers or NRC/USACE Radiation Safety Officers
 - Implemented by in-house Radiological Control Technicians
 - Supported by expert Internal/External Dosimetrists and degreed Radiological Engineers
- Plan, design, and perform **MARSSIM/MARSAME Characterization and Final Status Surveys**
 - Define Data Quality Objectives with regulator and stakeholder interface
 - Satisfy NUREG-1757 NRC Consolidated Decommissioning Guidance
 - Prepare Final Status Survey Plans
 - Staff and implement Final Status Surveys with company-owned instruments
- Higher **technology radiation measurement** solutions
 - GPS-enabled gamma spectroscopy on ATVs
 - ARC-View, GIS heat maps, and 3D indoor and outdoor mapping
 - Non-destructive assay and
- ISOCS real-time spectroscopy
 - Radiation and industrial hygiene instruments for rent
- **Hazardous, Radioactive, and Mixed Waste Management, Brokering, and Shipping**
 - Waste characterization, sampling, and data management
 - D&D, demolition, and license termination
 - Source removal and soil remediation
 - Volume reduction and segregation
 - Transuranic waste processing and disposal oversight
 - Turn-key packaging, labeling, manifesting and quality assurance
 - Logistics management and waste tracking
 - NORM and TENORM management
- **Landfill Design, Construction, Operation and Maintenance and Oversight**
- **Radiological and Industrial Hygiene Instrumentation**
 - Full array of rental instrumentation available
- **Environmental Compliance**
 - Development and implementation of Sampling and Analysis Plans
